NAME
    newgrp – log in to a new group

SYNOPSIS
    newgrp group

DESCRIPTION
    Newgrp changes the group identification of its caller, analogously to *login*(I). The same person remains logged in, and the current directory is unchanged, but calculations of access permissions to files are performed with respect to the new group ID.

    A password is demanded if the group has a password and the user himself does not.

    When most users log in, they are members of the group named 'other.'

FILES
    /etc/group, /etc/passwd

SEE ALSO
    login(I), group(V)
