NAME

    stime – set time

SYNOPSIS

    (stime = 25.)
    (time in r0-r1)
    sys stime

    stime(tbuf)
    int tbuf[2];

DESCRIPTION

    Stime sets the system's idea of the time and date. Time is measured in seconds from 0000 GMT Jan 1, 1970.
    Only the super-user may use this call.

SEE ALSO

    date(I), time(II), ctime(III)

DIAGNOSTICS

    Error bit (c-bit) set if user is not the super-user.
